

## The Rodgers Four-Manual Hybrid Organ

The All Saints sanctuary is blessed with a four-manual Rodgers Hybrid (digital/pipe) Organ and wonderful acoustics. This instrument is a powerhouse that delivers the digital sound voices sourced from some of the finest pipe organs in the world. They are rich in colour and deliver a realism found nowhere else thanks to the care Rodgers sound engineers use in capturing long, detailed samples using up to eight microphones.

The Rodgers Hybrid organ retains 8 ranks of pipes from the original pipe organ installation that can be seamlessly combined with the digital sounds for a spectacular experience for the player and the audience. Combined with the beautiful acoustics of the All Saints Sanctuary the Rodgers Organ provides a wonderful listening experience.
